

B4 MASK

IP55 3-position switch

Typical application fields:
outdoor electrical equipments,
hydraulic pumps

| | |
|---------------------------------|---|
| Current ratings | EN 16(6) A 250 V 10/120 1 e 4; 12(10) A 250 V 5 e 4 UL 16 A 125/250 V 1/2 hp 125/250 |
| Mechanical | 100.000 operations |
| Working temperature | 0 ... 125 °C |
| Insulation co-ordination | 2.5 kV rated voltage impulse withstand; Pollution degree 2; Material class II |
| Degree of protection | IP55 (front) – IP00 (terminals) |
| Insulation materials | Glass filled Polyamide, GWIT 775 °C |
| Metal parts | Corrosion protected zinc plated copper |
| Standards | EN 61058 – UL 1054 |
